Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, drawn to a safety razor, classified in class 30, subclass 50.
 - II. Claims 8-17, drawn to a safety razor, classified in class 30, subclass 527.
2. The two inventions are independent and distinct, each from the other because the invention of Group I is directed to a specific structure for the blade unit of the safety razor while invention of Group II is directed to a specific pivotal connection between the blade unit and the handle of the safety razor.
3. Because these inventions are distinct for the reason given above and have acquired a separate status in the art because of their recognized divergent subject matter restriction for examination purposes as indicated is proper.
4. A telephone call was made to Mr. William E. Booth on March 31, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
